

My First Savings Goal

Three activity pages • Ages 4–7 with grown-up support

Print. Try. Talk together.

No allowance or regular payment is required. Progress can be slow. This is a conversation activity, not a test. Example: a \$5 goal with \$2 saved means \$3 more is needed.

- 1 Help your child choose one small goal and draw it. Write the price and any money already saved.
- 2 Use the savings log whenever money is added. A grown-up can write dates and calculate totals.
- 3 Decorate the three jar labels. Talk about saving, spending, and sharing; choose amounts together.

Printing tip: use US Letter paper. Print at actual size (100%). All content fits inside normal printer margins. For two-sided printing, use the long-edge setting.

Something worth saving for

Draw one thing or experience you would like to save for.

My goal

It costs \$ _____

I already have \$ _____

I still need \$ _____

Grown-up check: goal price minus money already saved = money still needed. If the goal is already covered, the amount still needed is \$0.

Little steps add up

Write a row whenever you add money. There is no deadline.

Date	Money added	New total saved
	\$	\$
	\$	\$
	\$	\$
	\$	\$
	\$	\$
	\$	\$

Grown-up check: previous total + money added = new total. A gift, earned money, or coins already at home can all count. Never feel pressured to add money.

Save · Spend · Share

Decorate the labels. A grown-up can help cut them out and attach them to containers.

SAVE

For something I want later

SPEND

For something I choose now

SHARE

To help someone or something I care about

There is no required split. Decide together how much belongs in each container.
